

KLOVE radio program serves me and many others in our local communities. It has a positive message, never a cuss word, brings peace and joy to my life, and is uplifting to me as well as many others. If it were to be replaced by an LPFM broadcaster providing another program, that would be a disaster. This is the only station where my children can listen and I don't have to screen what they are listening to. If it were replaced, other programs would be sexually explicit, full of bad words, and very suggestive lyrics.

The service provided by KLOVE is in the best interest of the public. It represents positiveness, living our life to the fullest, and encouraging people to do their best. Most other stations can not do that.

Please PLEASE, do not get rid of KLOVE.  
Sincerely, Wendy Compton
